

Cala: Basic intentions:

Cala Project intends to:

- Keep and develop a committed group, in a constant process of self-education, self-training and construction as a group, diverse, egalitarian...a permanent education/training centre to do workshops, all kinds of meetings, work camps...
- Provide an alternative encouraging educational experience, a training based on collective implication.
- Contribute to the development of networks - through contact, likings and support- in such a way that enables us to play an active part in training.
- Act especially on the local level, encouraging initiatives working for community development on any field.
